

## Pupil Premium Strategy 2016-17

We will receive £24,180 for our Pupil Premium fund.

Barriers to learning that our Pupil Premium group experience are:

- Challenging home finances
- Emotional issues
- Special educational needs

We will use the fund to:

- Pay some *wrap around* and school visit costs so that no pupil is disadvantaged because of finance.
- Engage the services of Mentor Link in order to assist emotional development.
- Part-fund teaching assistant costs to allow 1:1 interventions as well as classroom support.
- To fund whole-staff grammar training to ensure that secure subject knowledge supports pupil development in this area.
- To fund training in phonics: *Read, Write Inc.* to ensure pupils receive the highest quality support.

We will measure the impact of our strategy using our pupil tracker to make regular assessments. The strategy will be reviewed by governors in February 2017.
